THE SIXTEENTH ANNUAL REPORT
 OF THE
Committee of Visitors
 OF THE
 Joint Counties' Lunatic Asylum,
 AT ABERGAVENNY,
To the several Courts of Quarter Sessions
 FOR THE
 UNITED COUNTIES & the city of HEREFORD.

The Committee of Visiting Justices of the Joint Counties' Asylum report that at the last Annual Report:—

There were in the Asylum—Males	205
Females	275—480
Admitted since—Males	76
Females	94—170—650

Discharged—

Recovered or relieved	62
---------------------------------	----

Transferred to other Asylums	34
--	----

Escaped	6
-------------------	---

Died	46—148
----------------	--------

Leaving in the Asylum	502
---------------------------------	-----

Namely, 213 males, and 289 females.

In addition to the above, there are 133 patients in other Asylums, under contract—viz : at Dorset, 60; Denbigh, 24; Briton Ferry, 47; and Fisher-ton House, 2.

The number of Patients on the books of this Asylum, at present, are 635. The increase in the course of the year has been 40. There have been some special causes for this great increase; and the Visitors have reason to hope that the future increase will be much less.

The Committee are taking steps to provide for the additional accommodation which may be required. If any additional buildings are proposed, it will be reported to the Sessions of the respective Counties and City of Hereford.

The charge for maintenance, &c., of Patients, during the past year, has been 9s. 6d. per week; and the expenditure for the same, about 9s. It is ordered that the charge for the next year, be 9s. per head, weekly.

A call has been made for £425 upon the Treasurers of the United Counties and City of Hereford, for an outfit, and furnishing a Villa for 23 male patients and two attendants; also for £500 upon the Treasurers of Monmouth, Hereford, and the city of Hereford, for the extra charge for maintenance of patients in other Asylums.

S. R. BOSANQUET,

Committee Room,

CHAIRMAN.

Asylum, 24th December, 1868.

COMMISSIONERS' REPORT.

Joint Counties' Asylum, Abergavenny,
2nd November, 1868.

Upon our visit, this day, we have inspected the Asylum in its several departments, including the Farm Buildings, and detached Cottages and Villa, and with the exception of one woman, absent on trial, named Mary Prosser, who was erroneously returned to our office, as absolutely discharged, have seen all the patients.

We have to report the following, as the changes in the Patients, since the visit of our Colleagues, 25th November last, and their present numbers.

	M.		F.		Tot.
Admitted	78	...	87	...	165
Discharged and Transferred	62	...	72	...	134
Of whom recovered.....	20	...	24	...	44
Died	26	...	16	...	42
Present Numbers on Books .	219	...	290	...	509

Of the patients discharged from the Books, 3 of each sex had escaped, and were not recaptured within the statutory period.

The discharges also included 34 patients, viz. : 11 of the male, and 23 of the female sex, sent under contracts to the Dorset, and N. Wales Asylums, and Fisherton House.

With the following three exceptions, the particulars of which were duly reported to our Board, and wherein Inquests were held, the deaths were from ordinary causes: 1.—A case in the male division of Peritonitis, from rupture of the intestine, caused by a blow from another patient: 2.—The strangulation of a female patient by another, and 3.—Death of a woman from fracture of the thigh bone, followed by Dysentery.

An Inquest was also held in the case of a woman who died suddenly of Heart-disease.

The patients from this Asylum, now provisionally in the Dorset and N. Wales Asylums, and Fisherton House, are 136 in number, viz.: 77 of the male, and 59 of the female sex.

It thus appears that the Pauper Lunatics at present in Asylums, belonging to the United Counties and the city of Hereford, are 644 in number viz. : 295 of the male, and 349 of the female sex.

In reference to the question of accommodation, it is material to observe that this Asylum was originally designed for 214 patients; and that, whilst the day-room space remains the same, the actual number of beds has increased to 394. The additional sleeping accommodation has been provided, amongst other means, by the formation of dormitories under the roof, on the attic floor, and the appropriation to patients of some more rooms occupied by the Superintendent before his removal to a detached residence.

“The Laundry Block,” which constitutes a separate and complete establishment, affords excellent accommodation for 52 female patients.

The female Cottages are now fully occupied, and the Villa, which will afford accommodation for 22 male patients, is nearly furnished, and already contains from 12 to 14 patients.

At the Farm, are about 12 male Patients. Such are the existing arrangements.

Several, however, of the dormitories, in the main building, are over-crowded, and it is estimated, that, allowing a proper amount of cubic space per bed, the Asylum, including the Farm and Cottages, would not accommodate more than about 450 patients.

The result is that, after providing for the existing number of Pauper Lunatics in Asylums belonging to the counties of Monmouth and Brecon, 378 in number, viz.: 306 from the former, and 72 from the latter, there would remain only 72 vacant beds. We have here further to state, that during the last ten years, the average annual increase of pauper patients from those counties has been about 18 of both sexes.

We think it well now to record these facts for the serious consideration of the Committee of Visitors, and we are the more induced to do so, by the circumstance that, as we are informed, the

question of reconstruction of the existing union is not yet finally decided.

The Justices of the county of Brecon have not yet complied with the statute, by the appointment of a Committee to erect or provide an Asylum for their Pauper Lunatics, upon the dissolution of the present Union ; nor have the Justices of Radnorshire finally decided upon joining Herefordshire.

The present patients belonging to Radnorshire and Hereford county and city, are 229 and 32, respectively ; total 261.

The present ordinary weekly charge for maintenance is 9s. 6d. The weekly charges for Pauper Patients sent to other Asylums are as follows, viz. :—Dorset Asylum, 11s. 6d. ; N. Wales Asylum, 12s. 10d. ; and Vernon House, Briton Ferry, 12s. ; the average of the whole being 12s. per head. The difference between this sum and 9s. 6d. is paid according to Act, by the United Counties and Borough, and not charged to the several Unions.

The sanitary state of the Asylum is good ; the Patients last registered as under medical treatment being only nine of each sex. We found 20 Patients, 11 males and 9 females, in bed.

According to the Medical Journal, the patients secluded since the last visit, have been 29 in the male division, and 40 in the female ; and generally for short periods. We found no one in seclusion,

There has been no instance of restraint.

The Chapel attendance on Sundays is about 115 men and 98 women; and at morning daily prayers, 47 of the former, and 67 of the latter.

The patients usefully employed are as follows;—

MALES.		FEMALES.	
Garden and Grounds	55	Needle Work.....	85
Trades	39	Laundry.....	31
Other Employments...	47	Kitchen and Wards...	98
Total	141	Total	209

We have satisfaction in reporting most favourably of the personal condition and demeanour of the Patients of both sexes, who were well clad, quiet, and orderly, and generally contented. None made any complaints on the score of treatment.

They are evidently, in all respects, well cared for and kindly treated.

The arrangements generally, and the clean and comfortable condition of the wards and rooms, and beds and bedding are very satisfactory and creditable to the Institution.

Excepting in No. 1., on each side, the walls of the corridors and day-rooms are painted below and papered above.

We suggest, for the additional comfort of the patients, the introduction into the wards, of more chairs and settees.

The Airing Grounds are well laid out and kept, and command fine views of the hills and valley.

The means of amusement are liberally supplied.

The patients dine in their respective wards, and the dinners this day, consisted of excellent boiled beef, potatoes, cabbage, and bread.

R. W. S. LUTWIDGE, } Commissioners
ROBERT NAIRNE. } in Lunacy.

R E P O R T
OF THE
MEDICAL SUPERINTENDENT
For the Year 1868.

The Medical Superintendent has the honour of submitting to the Committee of Visitors, his Report for the year 1868, together with the usual Statistical Tables.

On the first of January last, there remained under treatment in this Asylum, 483 patients, 207 males, and 276 females. During the year there have been admitted 173, viz.;—82 males and 91 females, being 15 more than in the previous year, and 32 above the average of the ten preceeding years. The admissions were artificially increased, however, by the readmission of 11 patients from the Denbigh and Worcester Asylums on the partial or total cessation of the contracts with those Asylums.

Deducting these cases, the admissions for the last three years have been as follows:—

	Admitted for the First Time.			Re-admitted.			Total Admission.		
	M.	F.	Total.	M.	F.	Total.	M.	F.	Total.
1866	72	57	129	19	15	34	91	72	163
1867	78	55	133	12	13	25	90	68	158
1868	64	69	133	11	18	29	75	87	162

These numbers shew a remarkable uniformity both in those admitted for the first time, and in the total admissions.

The total number under treatment during the year, was 656; and the average number resident, was 497, viz.: 212 males, and 285 females. The highest number resident at one time, was 510, in June, and the lowest, 482, in February.

The number discharged recovered, was 60, 25 males and 35 females, being in the proportion of 34.6 per cent to the admissions. Nine patients were discharged relieved, and 35 were discharged not improved; but of these 33 were transferred to other Asylums.

During the year 45 deaths have occurred, 28 of males, and 17 of females, being in the proportion of 9.1 per cent below the average, the death rate amongst the females having been, as in the previous year, very low.

At the beginning of the year, 115 patients, 75 males, and 40 females were boarded under contract, in other Asylums. Various changes have occurred

during the year. Six males and one female have died, and one male has recovered. The remaining ten female patients were removed from the Worcester Asylum, in July, seven males were removed from the Denbigh Asylum, in December, and a number of female patients were sent to the Briton Ferry Asylum. At the end of the year there remained 68 males, and 58 females, being a decrease of 7 males, and an increase of 18 females, during the year, or a net increase of eleven.

In this Asylum, there was an increase during the year, of 14 males and 10 females, making a total increase in the year of the number chargeable, of 35, viz. : 7 males and 28 females.

This great increase in the number of females arises from the fact that the admissions, 91 in number, were higher than in any previous year. On referring to table XV, which shows the form of insanity on admission, it will be found that the increase occurs under two heads, those labouring under chronic mania, and congenital weakness of mind ; 30 females having been admitted of those classes, in 1868, as compared with 11, in 1867 ; and 5, in 1866. This further illustrates what I have so often brought before the Committee, that the increase of patients is not derived from an increase of recent cases of insanity, but from long-continued and slighter forms of mental disease and defect, which were not formerly sent to Asylums. The disproportionate increase of females in 1868, is exceptional. The increase during the last three years,

after deducting those brought back from other Asylums, has been 57 males, and 54 females, total 111.

During the year we have been exempt from epidemic, or contagious disease; and the health of the patients generally has been very good.

At the beginning of the year, one of the three houses, on the land recently purchased, had been occupied for some time by female patients. The other two have since been occupied, one by males, and the other by females; and the three afford accommodation for 51 patients—23 males and 28 females. This has been a most welcome and valuable addition, and has much relieved the pressure for room. They have been fitted up as simply as possible, without any special Asylum arrangements; and I have much pleasure in reporting that they have exceeded even my sanguine anticipations, as desirable residences for certain classes of patients; and the comparative quiet and liberty are much appreciated by many.

These additions have increased the number of beds to 509, 225 for males, and 284 for females. At the end of the year the males were four less, and the females two more than these numbers.

I again thank the Committee of Visitors for their invariable kindness and support, in the discharge of my duties. From all the Officers of the Institution I continue to receive the most able and kind co-operation.

D. M. M'CULLOUGH.

REPORT OF CHAPLAIN.

1868.

*Joint Counties' Asylum, Abergavenny,
January 14th, 1869.*

Mr. Chairman and Gentlemen,

I have the honour of submitting to you my Report for the past year.

The patients have, during the year, attended the religious services provided for them, with their usual regularity. On a Sunday, a larger number could advantageously be brought, were there room for them. Those who volunteer to come are now numerous enough to fill the chapel. Were there more space than there is, many more, however, could be urged, with a prospect of benefit to themselves, to attend Divine Service.

The singing in the Chapel has been greatly aided by Miss Bishop's undertaking to perform on the Harmonium. No attempt is made to procure fine music,

for this evidently, could only be ensured by the objectionable plan of insisting on the majority of the congregation remaining silent, while a trained choir alone carried on the singing. The inmates, now, when a tune is well known—and provision should be made for this purpose—sing with heart and voice, in that manner called congregational, which for suitableness to an Asylum intended for the poor, and for acceptableness to the patients themselves, seems to be much preferable to the other method.

An improved plan has been adopted for the working of the Library, which fully answers the expectation formed of it. A certain number of books, with a list of the same, are sent to each of the wards, with the direction that the books sent to the one mentioned last on the list, are to be returned to the Chaplain's room, at the end of the month; while those sent to the ward which is first on the list, are to be passed on to the next, and so on. This plan secures a continuous circulation of the books with comparatively little trouble.

The number of burials during the year has been 27, out of 45 deaths. The highest number during a year has been 38.

I have to thank the Committee for an allowance of £5 18s. 4d., for the purchase of Bibles, Testaments, and Prayer Books. There is a considerable stock of these in hand at present, and probably another allowance will not be required till the ensuing autumn.

The associated amusements have, as heretofore, been actively encouraged by Dr. Chapman and myself, and have been heartily engaged in by a number of patients. In connection with the indoor recreations, may be mentioned the Readings, given once a fortnight, and the Singing Class held for practice in the evening twice a week, with the object of providing entertainment during the Monday evening gatherings, and other occasions.

I have the honour to be

GENTLEMEN,

Your odedient Servant,

W. GEO. DAVIES,

CHAPLAIN.

The Committee of Visitors.

The additional allowance to Working Patients is thus divided :—Bread and Cheese, with half a pint of Beer or Cider in the morning, and half a pint of Beer or Cider in the afternoon.

On Tuesdays the Meat and Vegetables are made into an Irish Stew, and occasionally Rhubarb, Suet, or Meat Puddings are substituted. On Saturday the Meat is made into Pease Soup.

The Female Patients in the Refractory Wards and those resident in the Laundry Building, are each allowed half a pound of Bread weekly extra The Rations are sent to each Ward in Bulk, and are there divided by the Attendant among the Patients resident, according to their respective requirements; by this practice, very little, (if any) waste occurs.

The Tea and Coffee is made by the Attendant in each Ward—each Female Patient being allowed 1 1/2 oz. Tea, 1/4 lb. Sugar, and 1 pt. Milk weekly; each Male Patient being allowed 2 oz. Coffee, 3/4 oz. Tea, 1/4 lb. Sugar, and 1 pt. Milk weekly.

Five days in the week the Patients have two kinds of Vegetables—Potatoes always; the second vegetable consisting of whatever may be in season, such as Cabbage, Brocoli, Beans, Peas, Turnips, Carrots, Parsnips, &c.

An equivalent in Cheese is often given in lieu of Butter for Supper.

LIST OF NEEDLE WORK
 DONE BY FEMALE PATIENTS,
 FOR THE YEAR 1868.
